

Scripture: Ephesians 2:13-22

Main Idea: Often when we think of peace in the whole world that feels too big. We look at a map and see big spaces of land and wonder how we can help create peace all the way around the globe? But we are told in our Bible reading that God's peace is for those far and near and in Christ's love we are to share it. In life you will meet people who are from very different places than you and from very different places. It is important that we enter those encounters with God's peace.

Activity:

On the next page you've been given a world map. Add onto the map people or symbols that remind you that people just like us live all around the world and that those close to us and far from us are all loved by God and in need of God's peace.
