

Scripture: John 6:1-15

Main Idea: Have you ever felt like you didn't have enough to share? Jesus' disciples have that problem in today's Bible story. A crowd of 5,000 people gathered, and they realized that they might get *really hungry*. But how would they feed such a crowd? The disciples suggested they send everyone home instead. And then, a kid like you in the crowd came forward with just a little bit of bread and fish and Jesus used what the kid had to share to feed the whole crowd. It was a miracle! But this also reminds us that God has given us things that we can share with others.

Activity: Think about what you have that you could share to help others. This might be a physical object like food in our Bible story, or something like a hug or a song. Draw what you could share to help others in the bag on the next page.
