

Spot the difference

Can you find
5

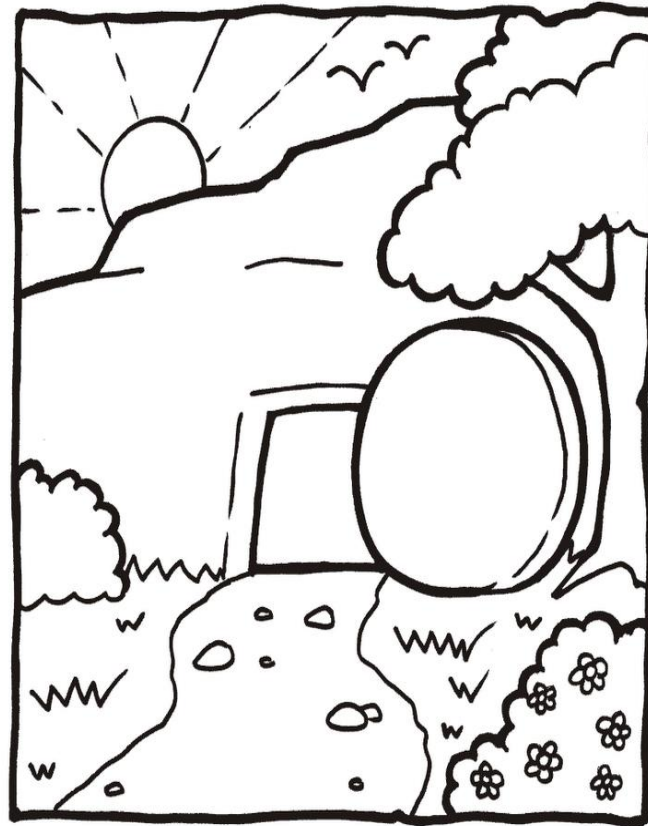

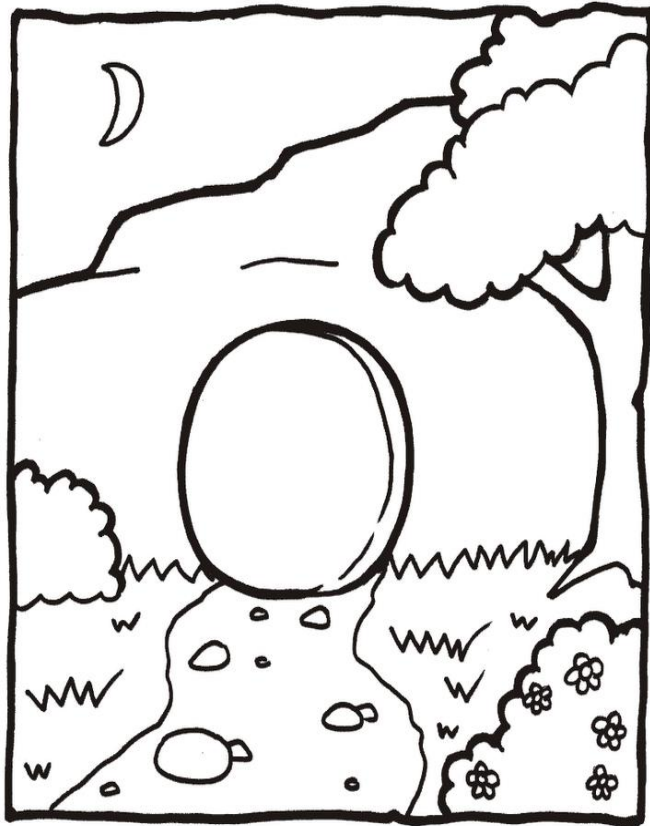

Wonder:

Could you imagine worrying and worrying about having to move a big stone out of your way on a long walk just to show up and see it was moved?

While the rock was not the BIGGEST thing that happened on Easter, it was the first sign to the women that a BIG change had happened. The moved rock was a sign, Jesus was alive again—risen from the grave! How fun would it be to think about that miracle of God's love every time we see a rock? What would it mean to you if every rock was a reminder of new life?

Do:

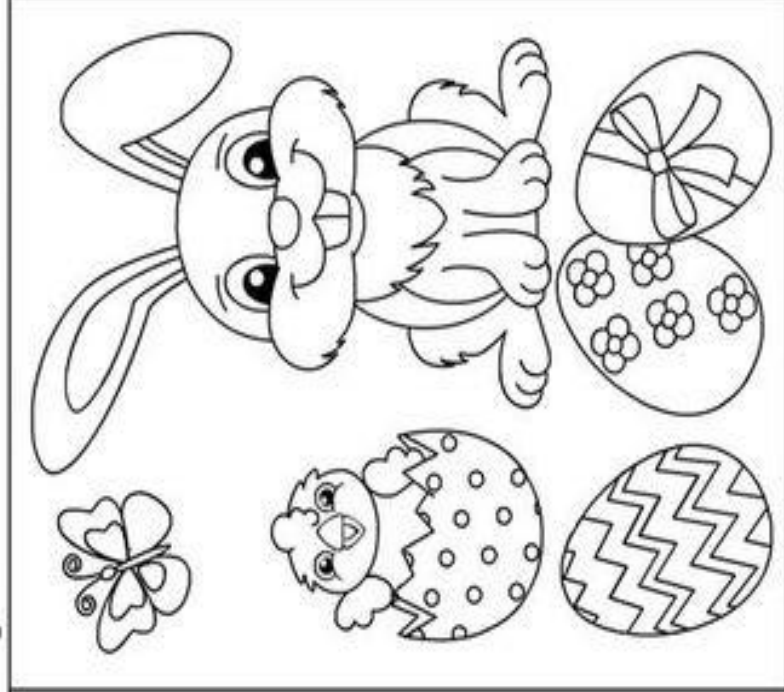

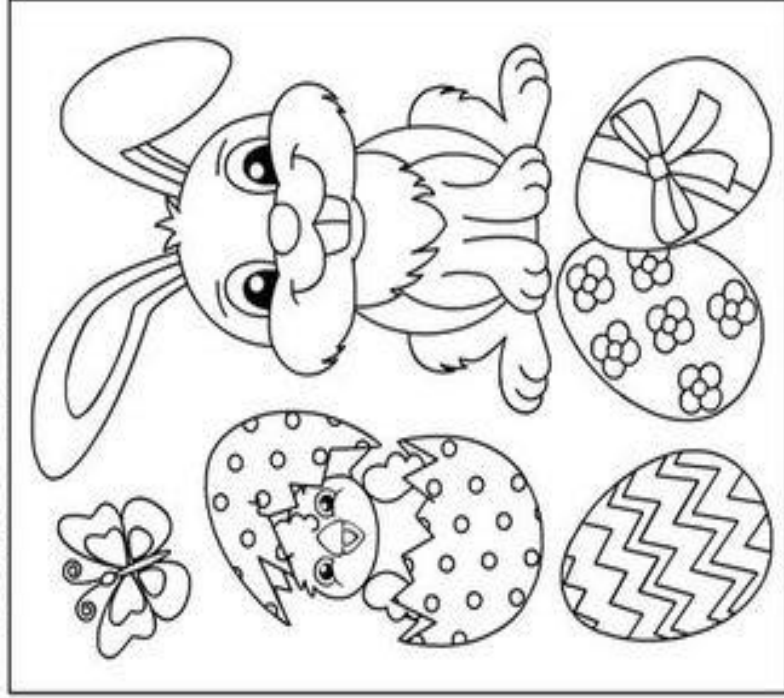

Find the differences in the picture of the tomb (hint, it always starts with the rock). Then when you find the 5 differences there, turn the page over and enjoy a few more find the difference pages!
