

Guidelines for shooting “We Love You, Pastor Dani!” video clips

1. The idea is that we will take all of these **short** clips and put them together in a video that will only last 2–3 minutes.
2. Each can be of a single person or a group, but if (for example) there are four family members, please have **one** clip with all four members saying “We love you, Pastor Dani!” at the same time, not four separate clips.
3. Shoot in landscape (sideways) not portrait. We’re going to be showing this on the TVs in the church, not on TikTok.
4. You can use your phone, or a camera, or whatever. Just so long as you can upload the clip to the web (address and QR code below).
5. You do not have to say “We love you Pastor Dani!” It could be “We’ll miss you!” or “Thank you for being our pastor!” or anything else so long as it’s short and coherent.
6. Before you shoot the video, listen. Make sure there are not clocks ticking or lawnmowers running outside or radios playing or other odd noises that your brain will tune out, but will sound REALLY LOUD on the video.
7. After you shoot the video, play it back to be absolutely sure it is exactly what you want. Everybody show up well? Everybody understandable? Do you have to turn up the volume REALLY LOUD to hear it or is the sound good? Great! Upload it! (Otherwise, please, do another take.)

Upload your video to https://pigeonfiles.com/u/gie1f_pigqvtqklirdf97p

Or user the QR code:
